

The Residency Seminar Committee presents:

Is it worth it to REDUCE-IT?: the value of triglyceride targeted therapy with non-statin drugs

A Knowledge-Based Activity

Hannah Whittemore, PharmD

PGY2 Ambulatory Care Pharmacy Resident
UIC College of Pharmacy

Thursday, September 19, 2019

12:30 pm – 1:20 pm

Live Presentation: UIC College of Pharmacy Chicago - Room 134-1

Rockford Broadcast: via Webex

Target Audience: Pharmacists

Learning Objectives:

At the completion of this activity, the participant will be able to:

- Describe the pathophysiology of elevated triglycerides and the associated risk of cardiovascular disease
- Discuss the changes in guideline recommendations for the treatment of hypertriglyceridemia
- Identify the role of icosapent ethyl in the management of hypertriglyceridemia

Fees: **There is no charge for attending this activity.**

Disclosure: The speakers, planning committee members, and reviewers who contributed to this activity have no relevant conflicts of interest to disclose.

Statement of Continuing Pharmacy Education Credit:

The University of Illinois at Chicago College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity has been assigned ACPE Universal Activity Number 0016-0000-19-065-L01-P, for 1.0 contact hours (0.1 CEUs). Attendance at the entire knowledge-based activity, completion of the evaluation, and submission of NABP eProfile ID and MMDD are prerequisites for receiving continuing pharmacy education credit(s). All ACPE credit awarded to participants must be uploaded to CPE Monitor™ within 30 days of the activity date, so pharmacists are required to provide their e-Profile ID and date of birth (MMDD) at the time of the activity. Please contact aguar12@uic.edu if you do not see activity information listed within 30 days. For more information and to set up your e-Profile visit: www.MyCPEmonitor.net.
